

20/40 MESH

PERFORMANCE

Average profile range 85-105 μm (3.3-4.2mil)

Blasting rates up to 20m²/hr (315ft²/hr)

Consumption rate from 15kg/m² (3lb/ft²)

COARSE GRADE ABRASIVE FOR HEAVY COATINGS AND TOUGH APPLICATIONS.

KEY PRODUCT FEATURES

Coarse grade garnet for removal of thick coatings and extreme rust

Creates high profile to suit high build coating applications

Increased recyclability, reducing cost and waste

Engineered particle size distribution for optimal cutting and cleaning performance

PRODUCT APPLICATIONS

Removal of coatings 750 μm + (20mil)

Surface Profile requirements of 85 μm +

High build coating removal

Offshore, tanks and heavy machinery

Removal of extreme rust

PROPERTIES OF AUSTRALIAN GARNET

HIGH HARDNESS

Tougher grains that increases performance and reduce consumption.

HIGH DENSITY

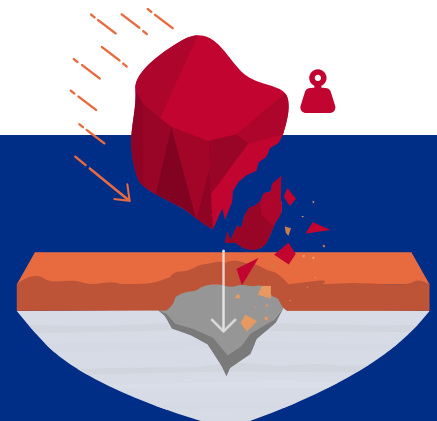

Increased surface impact, creating a deeper more consistent profile

LOW FRIABILITY

Increases recyclability and reduces dust.

SUB ANGULAR

Grains that produce an even profile for increased coating adhesion.

A SUPERIOR ALLUVIAL GARNET, AUSTRALIAN OWNED AND SOURCED, THAT CONSISTENTLY OUTPERFORMS ALTERNATE ABRASIVES.

20/40 MESH

INDUSTRY APPLICATION

- OIL AND GAS
- STEEL FABRICATION
- PIPELINES
- MARINE VESSEL MAINTENANCE
- CONSTRUCTION
- INFRASTRUCTURE

YOUR CHOICE OF GARNET MATTERS MORE THAN YOU THINK. CHOOSE GARNET FROM A PURE SINGLE SOURCE PRODUCTION.

Australian Garnet 20/40 Mesh premium abrasive is our coarsest product, ideal for removal of heavy marine grade coatings or extreme rust. The superior mineral properties of Australian Garnet enable high productivity rates and an exceptional surface finish.

FOUR REASONS TO CHOOSE AUSTRALIAN GARNET

PURITY

Supplied from a single high quality alluvial garnet source, providing consistent high quality and purity.

PRODUCT

Engineered to deliver optimized performance outcomes, meeting international standards and coating specifications.

PROCESS

State-of-the-art wet and dry processing plants produce a premium garnet with low chlorides, low dust and optimal particle sizing through stringent quality control.

PACKAGING

Premium color coded heavy duty packaging for safe handling and transport, and increased storage life.

AUSTRALIAN GARNET'S PROMISE

**RISK REDUCTION
EASIER ON
ASSETS AND
TRANSPORT**

**SUPERIOR
PERFORMANCE
